Office—Temple, Main and New High

OUR modern "Sampson" will be shorn of his locks.

THAT $100 will prove a costly bet. It will lose a good deal more with itself.

THE voters of the Sixth District may have something to say about that Sampson act.

THE chief resemblance to Sampson lies in the weapon. Sampson employed a certain jaw-bone.

THE people ask nothing to-day except that the delegates follow their consciences rigidly, and do not yield even a seeming trifle to cunning connubiators.

THE TIMES believes that the delegates will do their duty to-day. Part of that duty will be to watch jealously their prerogatives as men who are carried in no person's pocket.

THE County Central Committee should be made up of men who realize their position too well to act as bull dozers at the polls in behalf of any faction in the party as against any other faction.

IT is a good suggestion that the convention to-day nominate senators and assemblymen first. This can be got out of the way by to-night, leaving the field in clearer shape for the purely local contest.

THE Chronicle printed the Associated Press dispatch concerning the TIMES' two carloads of new type and other material, now en route to Los Angeles. It thereby got a clean "scoop" on the Los Angeles Herald, which received the same dispatch, but "lost" it.

THE weight of precedent is for the election, by the present convention, of a new County Central Committee. So is common sense. The regular nominating convention has always made the committee, and ought to do so, that the committee may have special reference to the candidates.

WORK on the TIMES building, unavoidably delayed for several weeks, will be pushed in a few days. It is hoped to have the building in shape for occupancy by December. The new deal will be welcome to the proprietors of the TIMES, who find themselves cramped for room to swing their business, which was never before so prosperous, and which is growing with a steady advance that resembles a "boom."

THE indignation aroused by the supremely atrocious murder committed Friday night is evenly mingled with sympathy for those who are bereft and beggared by the assassin's work. The murderer's own children are well provided for pecuniarily, but the family of James B. Kipp is left destitute. Not only is its aged head removed, but the bright little girl whose sturdy labor was the sole support of father, mother, brother and self is upon what will doubtless prove her death-bed. There are no resources, and it is a fitting time for substantial sympathy to step in. A $200 subscription has been raised by the girl's employers and fellow employés, which is good so far as it goes. One or two thousand dollars can easily be collected, and would put the stricken family beyond want for the present. The eight-year-old boy should be found light work which will bring in a little salary. The TIMES would like to see subscriptions started, and will turn over, with due acknowledgment, such moneys as may be transmitted to it.

WHEN the TIMES first opened upon the candidacy of Walter S. Moore, it spoke of his intense and utter selfishness. Those who know him well believe that there is not a man on the Republican ticket whom he would not sacrifice—as he sacrificed Judge Brunson—to save himself. His public utterances are of supreme support of the whole ticket, but no well-posted man has been blinded by this "taffy." It has been an open secret for weeks among the knowing, that Moore and his friends are using the knife. That there alliances to knife Gen. Vandever by the Mooreites, is corroborated on every hand. The TIMES will have more to say of this infamy later, and proposes to lay the whole conspiracy bare. At present it contents itself with the exposition of the following facts, which it is prepared to prove, and which the voters who will be asked to support Walter S. Moore because of his alleged Republicanism, have a right to know.

Walter S. Maxwell is Walter S. Moore's brother-in-law, and naturally interested in his success. A few days ago he made a bet with a well-known city official, putting up $100 to back his declaration that Gen. Vandever will not be elected. The city official covered the bet, whereupon Mr. Maxwell said, "You lose—*we are going to knife Vandever, and he won't get there!*" or words to that effect. Similar utterances have been made by Mr. Maxwell at other times and to other parties.

Moore himself has been even less guarded. For many weeks he has been saying that he would be elected if no one else was. The same remark was used by him in regard to his nomination. The other day he said to a well-known lawyer: "*I'm going to be like Sampson. If I go down, they all go down. I'm going to get one arm around Swift's neck, and one around Vandever's, and I'll pull them down with me.*"

This is from the man who does not propose to answer the damaging charges brought in good faith against him—and prepared to be proved—and who asks to be elected, not for his fitness, but for his Republicanism.

The TIMES is in daily receipt of strong evidence concerning this guerilla conspiracy, and will see that it comes to light. Denial will be in vain. It is sold proof that has the floor.

Revolting Troops Run Amuck in Madrid.

THE CITY PLACED UNDER MARTIAL LAW.

Savage Rioting in the Streets of Belfast—Parnell's Land Bill in the House of Commons.

Associated Press Dispatches to The Times.

MADRID, Sept. 20.—A revolution was attempted last evening by a number of Spanish troops quartered in this city; The uprising was ill-planned and ill-managed, and practically amounted to little. The trouble was inaugurated by a regiment of infantry quartered in the Gil Blas barracks. The soldiers revolted, broke down a partition wall that separated them from the quarters occupied by the cavalry, and intermingled with the men of two cavalry regiments, a number of whom joined in the revolution. The officers of all three regiments did all in their power to dissuade the men from revolting, but 300 soldiers, after beating a number of officers and wounding three, deserted the barracks and marched in two bodies through the town. One body went to the Prado, the principal park and promenade of Madrid. The other body went hurrahing through the center of Madrid, calling on the people to join in a revolution, crying, "Live the Republic," and making all kinds of threats against the monarchy.

The insurgents attempted, among their first exploits, to secure possession of the arsenals and barracks, which they attacked with an open fire, but all these places were well and successfully defended and the rebels were repulsed. The insurgents attacked and got possession of the Southern Railway. By this time the authorities had taken in the situation, and had fully prepared to master it. Loyal troops marched to the railway and after a short fight they completely dislodged the revolutionists who dispersed into the country, Gen. Paria pursuing.

During the fighting in the city, one of the officers leading the insurgents was shot and killed. The rebels shot Gen. Velarde for refusing to join them. They also mortally wounded Count Merasol, and killed a colonel of artillery. Martial law was proclaimed throughout the city as soon as the condition of affairs was clearly perceived by the government. The emeute was a complete surprise to Madrid. Quiet was soon restored. A number of insurgents were taken prisoners. This morning there is no appearance of revolution, or even of disorder.

The government telegraphed to the railway authorities to stop the insurgents who were fleeing in the direction of Alcala de Henars. The order was not complied, however, as the railway official feared an attack the rebels. Upon their arrival at Alcala de Henares the insurgents failed to arouse the sympathy of the people or troops, and they subsequently attempted to return to Madrid, but in this effort they were foiled, the line having been cut by local troops. A skirmish took place at Vicalvaro, a village about four miles from Madrid. The royalists wounded a number of the rebels and took several prisoners.

It Only about forty rebel cavalrymen are now at large. They will probably soon be captured. Arrests of Republicans continue. The Queen returns to Madrid to-morrow.

RIOTS IN IRELAND.

Sanguinary Encounters in the Streets of Belfast.

BELFAST, Sept. 20.—There was desperate rioting on Davis street yesterday. A policeman arrested two drunken men for fighting. A mob immediately gathered around the police and threatened them with violence, and it was with the greatest difficulty that the prisoners were secured. As soon as the barracks doors were closed, a fearful attack was made upon the building by the mob outside. Shutters were torn down and windows smashed. There were only four constables within the barracks. They fired eleven rounds, killing one man and wounding several others. It is said that a woman was wounded, and has since died. The mob was scattered by reinforcements of police. A labor mob regathered in small groups, when a number of priests tried to persuade the people to retire to their houses. The disturbed district is patrolled by military and police reinforcements.

BELFAST, Sept. 20.—At noon a large body of Queen's Island shipyard workmen, all Orangemen, marched ostentatiously through the streets on their way to and from dinner, as if to provoke a fight. At Carrick Hill they were attacked with volleys of stones, and a desperate fight ensued, which is still in progress. Many men on both sides have been wounded. The police are outnumbered and powerless.

BELFAST, Sept. 20.—Reinforcements have been telegraphed for by the authorities. The Mayor has to-day summoned a meeting of the magistrates for discussion as to measures to be adopted to prevent further disorder.

FOREIGN NOTES.

Parnell's Land Bill Before the House of Commons.

LONDON, Sept. 20.—In the House of Commons, Parnell, in moving the second reading of his land bill, said that the recent elections conveyed the mandate to the House of Commons that it should show itself willing and able to provide for the wants of Ireland equally as if there were an Irish parliament. Parnell explained the provisions of the bill's first clause, which enacted that any statutory tenant whose rent was fixed prior to the last day of the year 1884, might apply for an abatement, in accordance with the provisions of the bill. "The depression," he said, "commenced in 1885, and continued unabated ever since. There are no signs for the future. Times are growing worse, but I only ask the House to take action with regard to the rents falling due next November. Our opponents will probably urge that it will be exceedingly difficult for a land court to ascertain whether the tenants are really unable to pay their rents, but there was a similar difficulty to overcome in connection with the Arrears act of 1882. The court satisfied itself within five month of the inability of 200,000 tenants to pay their rents. Similar quietness and expedition will follow my bill, and the work will probably be finished in three months. I propose further that the tenants shall deposit half the amount of this rent, leaving the court to determine how much of the remaining half the tenants shall pay, and how much the landlords shall lose."

"The costs of evictions frequently exceeded the amount of rent due. If the Government, armed with this bill, should stay evictions in Kerry, it would do more to restore peace than all the Gen. Bullers put together."

"The working of the Land act of 1881," he said, "showed that there were almost as few just men among the landlords as bad been found in Sodom and Gomorrah. If it had not been for the landlords you might possibly have conciliated the Irish people."

Parnell's speech occupied one hour and twenty minutes in delivery.

Gladstone also spoke in support of the measure.

PREPARED TO OPPOSE RUSSIA.

CONSTANTINOPLE, Sept. 20.—It is stated here that England, Austria and Germany have invited Turkey to occupy Boumelia, if Russia invades Bulgaria.

THE ODD FELLOWS.

Annual Session of the Sovereign Grand Lodge at Boston.

BOSTON, Sept. 20.—The annual session of the Sovereign Grand Lodge, I. O. O. F., opened in Odd Fellows' Hall this morning.

Reports of Grand Officers were presented, beginning with that of Henry D. Gary, Grand Sire, who, in opening, traced the growth of the order since its last meeting in Boston, twenty-two years ago, in 1864, with less than 10,000 New England members. The same territory now numbers 65,000 brethren. The whole number was 137,623. To-day there are 517,-310 members, with an increase in the total revenue of over $4,000,000. The order is prosperous in foreign countries. Mr. Garey advocated the retention of the permanent location of the Grand Lodge in Baltimore. The figures of various Odd Fellows' beneficial associations show receipts for the past year of $1,050,905; paid to families of deceased members, $873,363; deaths, 1852; members in good standing, 46,144; money on band, $578,820.

The Grand Secretary's report contains a statement showing the condition of the order in the United States and Canada and the foreign jurisdictions. The prospects of both lodges and encampments for the present year are very flattering. Their part of the Grand Treasury showed a balance on hand August 20, 1886, of $15,672; receipts for the year of $49043; expenditures of $42,420, and available assets of the foreign Grand Lodge of $78,096.

A grand banquet, given in Odd Fellows' Hall this evening by the Sovereign Grand Lodge, was a very enjoyable affair. Plates were laid for nearly 500 persons. The gathering composed the Supreme officers and other high dignitaries of the order, together with many ladies.

ALASKAN EXPLORATIONS.

The Discoveries Made by Lieut. Schwatka's Expedition.

NEW YORK, Sept. 20.—The Times has a dispatch from Frederick Schwatka, in command of the Alaskan expedition, dated Sitka, Sept. 10th, via Nainamo, B. C., Sept. 19. Schwatka says his party on July 26th got to a height of 7200 feet above sea level on Mount St. Elias, the highest climb above snow level ever made. One of Schwatka's most important discoveries was an immense river emptying into Icy Bay—which is a mere indentation of Coast sixty miles west of Yakanbat Bay. The stream is from a mile to a mile and a half wide, 800 to 1000 yards of which is running water, the remainder being, at low tide, mud, sand and gravel. It was surmised at the time, and afterward partially corroborated, that the great river is entirely too big in every way to be draining only the seaward slopes of the St. Elias Alps, in the vicinity of the mountains, from which it apparently comes. It must head far beyond the range, and break through them. Its muddy waters discolor all the waters of Icy Bay and for many miles out to sea. It was named "Jones River," after George Jones, of the New York Times. It is not thought to be rivaled by any Alaskan river emptying into the Pacific Ocean.

IN THE QUAKE COUNTRY.

Slight Shocks Still Felt in the Vicinity of Charleston.

CHARLESTON, S. C., Sept. 20.—The condition of Summerville for the past three days in regard to earthquake disturbances has been very reassuring, and people are strongly impressed with the belief that the annoying tremors and detonations are about to cease. On Saturday last the whole day passed without even as much as a detonation. There were only two scarcely audible explosions on Saturday night, separated by an interval of two hours. On Sunday, about 9 o'clock, a. m. there was a plainly audible explosion which was, however, unaccompanied by the usual trembling of the earth. At 11 o'clock Sunday night there was a tremor, but as the people have become accustomed to such manifestations it caused little comment. At 2 o'clock this morning there was another slight shock of the same character. The detonations and tremors are now at very long intervals and are unheeded except by the most timid.

The situation at Charleston is brighter and more cheerful, a fact which is largely due to favorable weather and escape from the threatened West India hurricane. The death list from the effects of exposure is 39, as against 79 in the previous week.

IMPEACHED.

Mayor Smith of Philadelphia Taken to Task.

PHILADELPHIA, Sept. 20.—The City Council this evening, by a vote of 48 to 39, decided to impeach Mayor Smith on the charge of malfeasance in office, in accordance with the recommendation of the committee appointed to inquire into the matter.

Previous to this, resolutions of censure, couched in severe terms and offered as a substitute for the report of the committee, were defeated by a vote of 42 to 43. There has seldom been witnessed such scenes of anxiety and excitement as were presented in and about the Common Council chamber during the entire session. The galleries and lobby were crowded to their extreme limit, and hundreds were turned away by officers who were stationed at the entrances. No other business was transacted, and, indeed, nothing was thought of beyond the impeachment of Mayor Smith, the first event of the kind that ever occurred in this city.

After the votes upon the motion of censure, as a substitute for the resolution of impeachment, and on the resolution itself were taken, the results spread like wild-fire through the city, forming the all-absorbing topic of discussion.

SOCIALISM.

Its Latest Imported Advocates Speak in New York.

NEW YORK, Sept. 20.—Nearly 5000 people crowded into Cooper Hall tonight to hear the prominent Socialist leaders, Dr. Aveling, Mrs. Aveling and Herr Liebknicht, who were to explain their doctrines for the first time in this country. Sixty police were in the hall to maintain order. Herr Wilhelm Liebknicht, of the German Reichstag and the German Socialist leader, was the first speaker. He spoke for over an hour giving in detail his socialistic theory. He repudiated all anarchical sentiments, but he added that he had carefully followed the course of the trial of the Chicago Anarchists, and was convinced that they were innocent of the crimes charged against them. He asserted that the condemned men neither threw the bomb nor incited riot. They should have a new trial, and he for one would work to create a public sentiment which should compel it to be granted.

A Terrible Gale.

WILKESBARRE, Sept. 20.—Aiden, a small mining town about 9 miles from here, was visited by a terrible wind and rain storm last night. Nearly every building in the town was damaged. Several houses occupied by Hungarians were swept away, and many other buildings were unroofed. Morris's drug store, Martin's house and barn, and the public school buildings were wrecked. The storm caused the wildest alarm, and several people were injured, but none fatally.

LE MOORE, Cal., Sept. 20.—C. S. Hayes, of Traver, editor of the Traver Tidings, was shot and instantly killed here last evening in the presence of Miss Lulu Smith, his intended wife. They were seated in the parlor of the residence of Dr. Lovelace, when suddenly the report of a gun was heard, when young Hayes fell back, the blood gushing from his mouth, and died almost instantly. The tracks of the murderer could be seen in the yard, where he was thought to have run after firing. No motive is known for the crime.

HANFORD, Cal., Sept. 20.—The murderer of Editor Hayes, of the Traver Tidings, is believed to be a young man named Beaver, and it is thought that he committed the crime through jealousy.

COAST FIRES.

A Business Block in Lathrop Reduced to Ashes.

LATHROP, Cal., Sept. 20.—An entire block of the business portion of this town, except three small buildings, was destroyed by fire last night. His loss is not known. His insurance is $9000. Other losses foot up to about $10,000 with an insurance of $4300.

SANTA ROSA, Sept. 20.—Joseph Black's cannery here was destroyed by fire at about 5 o'clock yesterday morning. Loss $10,000; insurance $3400. The fire is believed to be the work of an incendiary, because some Chinese were employed. The loss throws seventy-five boys and girls out of employment.

RACE RIOTS.

Bloody Affrays Between Irishmen and Italians.

PITTSBURG, Pa., Sept. 20.—Four mile Run in the Fourteenth Ward was the scene of a bloody fray yesterday, in which two of the participants received fatal injuries. The fight was the result of a deadly feeling existing among the Irish and Italian laborers who have their abode in that neighborhood. On Saturday night while Joseph Vernard, an Italian, was on his way home, he was attacked by a gang of Irishmen. There were six in the assaulting party, and it is said that they were under the leadership of two brothers named Daly. Vernard was terribly beaten, but managed to escape to his home. No more trouble occurred until yesterday when a gang of twenty Irishmen called at Vernard's house and demanded admittance. A number of Italian boarders were in the house at the time and the doors were quickly barred. The assailants, however, battered the doors down, and rushed into the house. A free fight followed, in the progress of which P. Rocco, an Italian, had his skull crushed with a chair and Patrick Constantine an Irishman, was shot in the abdomen. The sight of the prostrate men seemed to frighten the others, and a general stampede took place, so that by the time the police arrived all had escaped. The wounded men were removed to a hospital where Constantine died four hours later. Rocco is still living but his recovery is considered doubtful. Two of the Italians were arrested. The Irishmen are still at liberty. It is believed that the latter intended to drive the Italians from the neighborhood.

KNIGHTS TEMPLAR.

The California Delegation at the Triennial Conclave.

ST. LOUIS, Sept. 20.—The event of yesterday in the Triennial Conclave arrivals was the appearance of the California delegation, who came in thirteen cars, with their families. They numbered fully 700. They were accompanied by the First Infantry and Second Artillery bands and grizzly bear cub, which attracted even more attention than the bands. Nearly every commandery in the State was represented by one or more members. The visitors were escorted to Hotel Laclede by Ivanhoe Commandery No. 8 (mounted), of St. Louis. The first numbers of the week's programme was given in devotional exercises, held at the Exposition Music Hall. An immense audience, numbering 7,000 people, including 1,000 Knights were in attendance, and hundreds were turned away. The services were from the ritual and were conducted by Very Eminent Sir Dr. George C. Betts, Prelate of the Grand Encampment.

Grand Master Withers, who arrived yesterday with the California delegation is quite ill. When he left China six weeks ago he was in bad health, and nothing could be done on ship-board to relieve him. He has been almost constantly traveling for six weeks, and is very much exhausted. He was refused to all visitors to-day.

At noon fully 10,000 Knights Templar had arrived and more than an equal number arrived this afternoon.

THE HOSTILES.

Chiricahuas and Warm Spring Indians in Florida.

JACKSONVILLE, Fla., Sept. 20.—A band of 382 Warm Spring and Chiricahua Indians, bucks and squaws and papooses, from San Carlos reservation, arrived to-night, guarded by two companies of United States troops. They left immediately for St. Augustine, where they will be placed on the reservation. A daughter born to Geronimo by one of his squaws, in the fort on the 12th inst., has been named "Marion," by Col. Langdon.

LODGED WITHIN THE FORT.

JACKSONVILLE, Fla., Sept. 20.—Under Col. Wade's convoy the Chiricahira Apaches were safely lodged in Fort Marion, St. Augustine, this evening at 4 o'clock. The Indians and soldiers are well. CHIEF MANGUS AND HIS BAND.

SAN FRANCISCO, Sept. 20.—Soldiers who have just returned from the scene of the Apache operations say that while Chief Mangus is at large Apache troubles are not at an end. He has a number of Indians with him, and with recruits can continue a campaign of robbery and murder until the band is exterminated. The Indians have full knowledge of the movements of the troops.

THE SEIZED SCHOONERS.

Trial in the Dominion Court—Trying to Fire a Reporter.

HALIFAX, N. S., Sept. 20.—At the opening of the hearing in the case of the seized American schooner David J. Adams this morning, Counselor Meagher, who represented the United States, again attempted to secure the exclusion of reporters. Only one of those present, however, had been subpœnaed, and after counsel had cited authority for the exclusion of witnesses, the court ordered this reporter to retire from the room. He refused to do so, and the sheriff was ordered to remove him. After some altercation he went out. When too late it was discovered that those concerned in it had put themselves in peril, as the sheriff has no jurisdiction in courts of admiralty. Later, when another of the subpœnaed reporters came in, Meagher demanded his expulsion, but the court declined to have anything to do with that class of procedure, whereupon the expelled reporter returned. Evidence was taken in corroboration of that heretofore given in the case, and the prosecution closed. Meagher has asked that permission be granted to take testimony for the defense in the United States, where nearly all of the witnesses are.

Eastern Yachting Notes.

NEWPORT, Sept. 20.—No decision in the yacht race which took place here on Saturday has yet been reached. The Mayflower finished before the Galatea, but the difference in time of watches used on the different yachts would make it appear that the Galatea finished first. The Regatta Committee is now in New York, and the race can be decided by it there only by the time of the finish, without regard to fouls, time allowances or handicap. According to this, the winners are the Gitana, Mayflower, Stranger and Cinderella in their respective classes.

A match race between the Mayflower and the English cutter Galatea, to be sailed off Marblehead some day this week, has been arranged.

A Yacht Sunk.

BOSTON, Sept. 20,—Yesterday the steam yacht Gracie encountered a heavy squall in the ship channel between Gallup's and Lovels Island, in Boston harbor. When the squall had passed over her the crew discovered a sloop-yacht bottom up, about a mile to the east of the island. As the Gracie approached her she righted and sank in 115 feet of water. Two men in the boat who had been her capsize said that she seemed to be full of passengers. No bodies could be found. The yacht's name before the name on her stern could be read.

Martin Irons in a Tight Place.

ST. LOUIS, Sept. 20.—Martin Irons, leader of the Knights of Labor strike on the Missouri Pacific railway last spring, was arrested in Kansas City last night, and will be brought to this city to answer charges found against him in indictments for complicity in tapping private telegraph wires running into Vice-President Hoxie's residence. His bondsmen have withdrawn from his bond, and he will be kept under arrest until his case is tried.

"El Coyote's" Death.

GALVESTON, Tex., Sept. 20.—A special to the News from Eagle Pass says: An authentic dispatch has just been received at Piedras Negras, which gives a different account of the manner in which "El Coyote," the revolutionary leader, and a portion of his band met their death. The dispatch states that "El Coyote" and seven of his followers were captured at Monterey, and were shot by order of Gen. Reyes.

AND STEERS CLEAR OF AN INTERVIEW.

Rumor that Cleveland Will Shortly Turn His Cabinet Inside Out—The Supreme Court—Notes.

Associated Press Dispatches to The Times.

WASHINGTON, Sept. 20.—Sedgwick arrived this morning. Upon his arrival he formally reported to Secretary Bayard his arrival in Washington and the completion of his errand in Mexico. He was closeted with the Secretary an hour, after which he left the department, announcing his intention to return to New York to-night, and that he declined to be interviewed with regard to his mission. Secretary Bayard said that Sedgwick had not yet made his report, and that its completion would require several days. He declines to disclose the nature of Mr. Sedgwick's verbal statement.

COMING CHANGES IN THE CABINET.

NEW YORK, Sept. 20—The Herald publishes, from what it asserts is an unusually reliable authority, that about October 1st the Cabinet will be recast. Secretary Manning will resign, Bayard will take the Treasury Department, Lamar will become secretary of State, and Joseph E. McDonald, of Indiana, will be appointed Secretary of the Interior. The Herald says this information is from a prominent bureau chief who knows what he is talking about.

BUSINESS BEFORE THE SUPREME COURT.

WASHINGTON, Sept. 20.—The Supreme Court of the United States will convene for action next month. The number of cases on the docket increases steadily from year to year. On the 20th of September 1885, the cases docketed numbered 964. At the close of business in the clerk's office to-night there were on the docket 1,002 cases, an increase of 38. Among the most important cases assigned for argument in the early part of the term, are the Pacific National Bank, from Boston which involves questions pending in three or four hundred suits in the courts below, and the case of the Kansas City, Lawrence and Southern Railroad Company against Benjamin D. Brewster, Attorney General. The latter is a suit brought to test the validity of the railroad company's title to certain lands in Kansas, and covers patents issued for the same. The controversy is between a large number of settlers. In view of these facts the Supreme Court has decided to advance the case on the docket, and hear arguments upon it,

THE CAPTURED SEAL PIRATES.

Acting Secretary Fairchild has received a telegram from Capt. Abbey, commanding the revenue steamer Corwin, dated at Nanaimo, B. C., which is as follows:

"I respectfully report the Corwin here. At the request of Gov. Swinburn and Judge Davis I have brought here twenty-two British seamen released from the seized sealers. I am to land the remaining American seamen at Port Townsend. The master and mates of the seized craft have been convicted and have been sentenced to fines or imprisonment or both. I made a full deposition for libel suits before leaving Sitka."

ACTIVITY AT THE WHITE HOUSE.

Arrangements are being made at the White House for the speedy return of the President and Mrs. Cleveland. They are expected to arrive in Washington on Wednesday evening.

EXIT ROUNDS.

The employés of the Government printing office to-night presented their retiring chief, Rounds, with an elegant silver service consisting of thirteen pieces.

Strike of Mill Operatives.

PHILADELPHIA, Sept. 20.—A strike occurred at the woolen mills of Seville, Schofield, Son & Co., at Manayunk, today, in which 700 men are involved. They demanded an advance of 15 per cent., which was refused.

Harvest Thanksgiving.

At the Opera House on Sunday, the Harvest "Thanksgiving services" of the Church of the Unity were exceptionally interesting. The arrangement of grains, vegetables, fruits, flowers, mottos and designs was exquisite. On the platform directly in front of the centre aisle there was a pyramid of vegetables and fruits about five feet in diameter at the base, and nearly or quite four feet high, that was very greatly admired. Mrs. Garey presented a flower-ship that was a rare specimen of taste and skill. The exhibition as a whole was an agreeable surprise to the vast congregation that completely filled the auditorium, below and above. Indeed a large number left unable to get seats. The music by a double quartette under the direction of Mrs. Davis was thoroughly inspiring. Mrs. Davis herself was in excellent voice and sang with sweetness and power. The abundant and most exquisite display on the platform, the immense congregation, the fine music, indeed the service as a whole, produced a very decided impression. Dr. Fay's sermon was, as usual, strong, thoughtful and highly appreciated.

Petty Larceny.

Francisco Yulo was captured by officer Rulo on Alameda street Sunday afternoon with an overcoat that did not belong to him. Yulo was arraigned yesterday before Justice Austin, and his trial was set for to-day. No owner for the coat has yet appeared.

CONGRESSIONAL TICKET.

For Congress, 6th Dist...GEN. WM. VANDEVER, OF VENTURA.

The Convention To-Day.

The Republican County Convention which meets to-day will be a representative body, and has an important work to do. Besides the selection of a county ticket—one that can be elected—the convention will be called upon by the pressure of public sentiment, as well as by the proprieties and necessities of the political situation, to put itself upon record touching several important subjects, local and State, whereon bold, candid, strong and honest expressions are expected from it by the people. If it expects to rise equal to the public demands, it will speak in no uncertain tones.

The indorsement of the State Republican platform and of the nomination of John F. Swift, particularly, is a matter of course, and will doubtless be made with unanimity. It is meet that a local Republican convention, held in the city where our admirable standard-bearer was nominated, should give him a hearty indorsement, and send greeting to the whole State on the auspicious selection.

A formal resolution against excessive assessments upon candidates, and in favor of the legitimate and economical expenditure of campaign funds and a strict accountability therefor, would, in the existing temper of the people, meet with favor.

In the present posture of affairs as respects individual candidates, and with the strong spirit of independence abroad among voters in the Republican party, any attempt to introduce and enforce a test question—a "gag law"—to bind either candidates or electors, would be extremely unwise, and would inevitably result in a disastrous revolt. The true rule to be followed in a party of the intelligence, independence and manhood of the Republican party, is to nominate clean and able candidates, and trust the people to support them "on the merits," of their own volition, and without coercion, which is unjust, unmanly and repugnant to free-born citizens.

The selection of a new county central committee is a measure of propriety and necessity. The present body was elected by a delegate convention, not by a nominating convention, and cannot properly or fairly claim the right to hold over during the campaign. It was organized for a temporary purpose. It is good party law, as well as good sense, that the candidates put up at any convention have a reasonable right to ask that a central committee in sympathy with them, and in whom they can repose confidence, be elected by the same convention. This rule, honored in its observance, should not be reversed by the convention that meets to-day. The present Republican County Central Committee, though composed of more or less good material, has a defective organization, and has not distinguished itself for wise and effective work, or for that strict impartiality which ought to be maintained by the managers of a body whose business it is to represent the whole, not simply a segment, of the party. The convention has the unquestionable right and power to reorganize the committee, and we believe its duty to the party lies in that direction.

The friends of popular rule—which means the direct opposite of ring or boss rule—are clearly in the majority in the convention, and it is only for them to act compactly together in order to achieve success and effect correct results for the people. "Unite and conquer" should be their motto to-day.

The TIMES hopes for the labors of the convention the best possible outcome.

Candidates and Probabilities.

In another place in this paper will be found as complete a list of the candidates who are to appear before to-day's Republican County Convention for, its suffrages, as could be collected up to a late hour last evening. The list is a large one and embraces some excellent material—some not so excellent. On some of the offices it is extremely difficult to gauge, in advance, the probabilities of success; on others it is easy; in a few cases the result is practically certain.

For State Senator in the city district the contest will, it is expected, lie between Mr. Hazard and Mayor Spence, the latter having consented, at the earnest solicitations of friends, to enter the race. He takes the field late, but having a strong following, a good standing with the people, and possessing undoubted qualifications for the office, his chances for the nomination ought to be large. He can be elected. In the country district the chances favor Hon. E. E. Edwards, of Santa Ana, the present efficient Assemblyman for that district. His opponents are Mr. H. W. Magee, of Pasadena, and possibly Mr. Richard Melrose, of Anaheim, though the candidacy of the latter may be a myth. Col. Edwards is indisputably the more available man of the three.

The Assembly candidates are John R. Brierly in the Seventy-sixth, and Geo. W. Knox in the Seventy-seventh district, with the candidate in the Seventy-eighth somewhat in the shadows as yet. He may prove to be "Dick" Melrose. The two first named are pretty certain to be nominated.

The Senatorial and Assembly conventions may be held in advance of the county convention, which would simplify and facilitate matters.

For the respective offices of Sheriff, County Clerk, County Recorder, County Tax Collector, County Surveyor, and Public Administrator, Messrs. Gard, Dunsmoor, Gibson, Hammond, Goldsworthy and Book, respectively, are practically certain to be nominated.

For Auditor, Frank Rader has just entered the field against Montaño, the incumbent, and will be pretty apt to carry off the baggage.

For County Assessor the candidates are five—Myers, Weid, Batcheller, Mason and C. R. Johnson, named, we believe, in the order of their entrance into the contest. The result is extremely doubtful. The candidates are all fairly capable men, but Batcheller is the most experienced, having been a city and county assessor in another county for ten years.

For County Treasurer the probabilities favor W. N. Munroe, who is opposed by McComas and McDonald. Mr. Monroe is a strong and popular man, and could be easily elected.

For District Attorney the candidates are Daly, Holton and Williams, with strong probabilities in favor of the first named. There is said to be a very good understanding between the friends of Daly and Holton, who are expected to co-operate, if need be, for the overthrow of Williams, the Boyce or boss candidate, who should be defeated. Mr. Daly is capable and experienced, and will make a very strong race if nominated, and can beat any Democratic candidate who may be trotted out.

For County Superintendent of Schools there are four candidates—Oliver, Wade, Clark, and Seaman—and when we are asked as to probabilities, we have to "give it up." All the aspirants are fair men. Mr. Oliver is an old educator, and has been longest in the field as a candidate.

For Coroner, James M. Meredith has the inside track, as far as can be judged now.

For Supervisors the winning candidates are believed to be Tom Banbury of Pasadena, J. W. Scott of Santa Monica, and J. M. Guinn of Los Angeles, in their respective districts.

For City Justice, H. C. Austin, incumbent, will be renominated and re-elected; and for Township Justice, Capt. A. M. Thornton might properly be given the place now held by Justice Ranney. He would make a capable and honest judicial officer.

The Constables wind up the list. There are several candidates, if not more. Martin Aguirre and O. C. Baldy appear to be ahead.

The probabilities here outlined may be tripped up by combinations in some cases, but the trend of things at this writing is in the directions above idicated.

GENERAL VANDEVER.

An Authentic Sketch of His Early Career.

The Annals of Iowa—the official publication of the Historical Society of that State—contains the following interesting biography, up to 1867, of General William Vandever, the Republican nominee for Congress from the Sixth District of California. It is a handsome tribute, and an authentic one:

General William Vandever is a native of the city of Baltimore, and is just fifty years old, having been born on the 31st day of March, 1817. When he was ten years of age, his parents removed, or rather returned, to the city of Philadelphia their former place of residence, where they remained until young Vandever had grown to man's estate. He received such education as only the public schools of that city afforded. How well he improved the limited facilities which these schools furnished as the foundation of a self-culture rigidly practiced, his matured life of useful labor and the ability and success with which he has discharged the duties of positions of great responsibilities, requiring thorough knowledge and mental discipline, fully testify. At the age of twenty-two he emigrated west ward, and located at Rock Island, Ill., he remained there till 1857, when he took up his residence at Dubuque, Iowa. During the twelve years that he was a resident of Illinois he was for several years engaged in the survey of the public lands, and part of the time owner and editor of a paper published at Rock Island, called the Northwestern Advertiser.

For the first two years of his residence at Dubuque he was employed in the Surveyor's General's office. Afterwards he commenced the practice of the law, to the study of which he had been giving a large portion of his time for the last few years of his residence at Rock Island, continuing and completing his course of study and admitted to the bar after taking up his residence at Dubuque. He commenced the practice of law as a partner of the Hon. Ben. E. Samuels, who will long be remembered by old citizens of the State as one of its most gifted advocates and eloquent public speakers. For a brief period Mr. Vandever discharged the duties of Clerk of the Supreme Court of the State. In 1858 he was nominated by the Republican party to represent the Second Congressional District in Congress. The canvass was a spirited and close one. His competitor on the stump was his former partner in business, Ben M. Samuels. We recollect well one of the discussions of these parties during that exciting campaign. As an orator in the accepted sense, Samuels had the decided advantage. In the ready "flow of language," in voice, in gesture, in style, and the indefinable look, air and bearing which form that personal identity comprehended in the word "presence," he had few equals on any forum in the nation. Ingenious in argument, he developed the strong points of his case with great skill. In rhetorical arrangement and expression, there was remarkable finish to his sentences, giving even to his extemporaneous efforts the character of well-matured and thoroughly digested speeches. And especially of that magnetism of manners which allures and fastens attention, elicits sympathy and carries a crowd, he was redundantly supplied. All in all, he was a tower of strength to the Democratic cause at that day. He was met by his opponent with a cool self-possession which is not without its influence upon an audience, in connection, for the view to the safety of the position. The fine rhetoric of his adversary was met with the potent logic of gold, arranged and marshalled into the combat with great skill and with telling effect. Whatever the respective merits of the two combatants, or of their respective cause, the Democratic cause and candidate were doomed to be defeated at the polls and Mr. Vandever elected. His colleague in the House was the lamented Gen. Samuel R. Curtis—the State then having but two representatives.

In 1860 he was re-elected by nearly 10,000 majority. In 1861 commenced the war of the rebellion. Curtis and Vandever both offered their services to the Government, and being accepted, they both abandoned their seats in Congress, to share the perils of the strife. They both retained their seats, however, until after the extra session of that year. It was during this session that the disastrous battle of Bull Run was fought. The day after (the gloomiest, perhaps, in the history of the war) Mr. Vandever rose in his place in the House, and offered a resolution, which is thus mentioned by Greeley in his "American Conflict."

"It is worthy of record, that on this sad day, while Washington, crowded with fugitives from the grand army, seemed to lie at the mercy of the rebels, Congress legislated calmly and patiently throughout, and the House, on motion of Mr. Vandever, of Iowa, unanimously

Resolved, That the maintenance of the Constitution, the preservation of the Union and the enforcement of the laws, are sacred trusts which must be executed; that no disaster shall discourage us from the most ample performance of this high duty, and that we pledge to the country and to the world the employment of every resource, national and individual, for the suppression, overthrow and punishment of rebels in arms."

Very soon afterwards Mr. Vandever tendered to the War Department for the service of the government, a regiment to be recruited by himself, from among his constituents. The offer having been promptly accepted by Secretary Cameron, he set about raising his men without delay. Authority was subsequently given to add an artillery company. This work was soon accomplished, and, taking command in person, Col. Vandever reported at St. Louis with the Ninth Iowa Infantry Volunteers in the latter part of September, accompanied, also, by the Third Iowa Battery, better known as Hayden's, or the Dubuque Battery.

In 1862 he accompanied Gen. Curtis in his southwestern campaign through Missouri and Arkansas, commanded a brigade and bore a conspicuous part in the famous battle of Pea Ridge, and was specially mentioned for gallantry in his [Curtis'] report. In this action the Ninth Iowa, as well as the battery accompanying it behaved with signal bravery and determination. The 9th lost two hundred and forty-eight in killed and wounded, after having made on the preceeding day a march of forty-two miles.

In November, 1862, Col. Vandever was commissioned Brigadier General—participated in the battle of Arkansas Post; and afterward, having been transferred, by request of Gen. Curtis, to the Department of Missouri, and placed in command of the Second Division of the Old Army, was active in driving the enemy from southeastern Missouri across the St. Francis river.

In 1863 he took part in the siege of Vicksburg, and after the capture of that stronghold joined in an expidetion to Yazoo City. During the action at this place, the General had a remarkable escape from death, being one of the few who escaped the destruction of the boat DeKalb, which was blown up by striking a torpedo in the river.

Returning from Yazoo City, his next field of service, was at the Department of the Gulf—accompanying Gen. Banks, in his first expedition to Texas—participating in the capture of Brownsville, on the Rio Grande.

From Texas, he returned in December and reported to Gen. Grant at Nashville. Served with Grant, and afterwards with Sherman on the line of operations to Atlanta, and subsequently from Savannah to Richmond. At the battle of Bentonville, North Carolina, the General won distinction, and for it, afterwards, a brevet major generalship—having held an important position against fearful odds of numbers and a furious assult during a desperate and sudden move of Joe Johnston, by which he hurled his whole force against Sherman's left wing, thereby helping materially to save that portion of the army from disaster.

He was mustered out of the United States service in September, 1865, having served over four years. There are men who have now a wider renown and more rapid promotions and louder applause for their exploits during the war of the rebellion—but few there are who can show a worthier record for arduous and faithful service—of bravery in battle, or the manifestations of a truer patriotism, or of a more sincere devotion to the cause of the Union, from first to last, than Gen. Vandever.

THE METHODIST CONFERENCE.

Eleventh Annual Session at San Diego.

Correspondence of the TIMES.]

SAN DIEGO, Sept. 18.—The city of Bay-and-climate, for the first time in its eventful and fluctuative history, has the pleasure of greeting the largest body of clergymen in Southern California. She seems to feel her importance. Smiles like the first rose of summer, or the average small boy over his first Waltham. The street-cars smile (that is, when you can see them through the clouds of dust), and by dint of severe effort succeed in making one trip each half hour over about three-fourths of a mile of track. The Angeleño who steps into a cable-car and glides to the summit of the hights above his city, would look sad, if not forlorn, when he beheld a half dozen preachers in black broadcloth, plowing through dust six inches deep and shoving a car up hill, as a means of home getting. This has been the fate of your correspondent for the past three days. But we will give you more about the city after we have spoken of the Conference session.

On Wednesday evening a general reception was given to the Bishop and preachers in the Methodist Episcopal Church. An address of welcome was made by Philip Morse, and responded to by President M. M. Bovard of the University of Southern California. Following these speeches, Mr. Choate, of San Diego, began a speech on the progress of Methodism in the county of San Diego, but went not much farther than naming his subject. For after talking for about fifteen minutes on Bay-and-climate and the wonderful resources of the county, finally concluded by admitting that there was such a town in this part of the State as Los Angeles. Yet the evening's entertainment was very enjoyable, and seemed to have been the result of care and the well-laid plans of Rev. E. S. Chase, the preacher in charge, who is doing all he can to make his brethren at home in San Diego.

The opening session began Thursday morning with religious exercises, conducted by the Bishop, the Rev. H. W. Warren, D. D., LL. D., who, after administering the sacrament, delivered an address of great interest.

The roll was called by W. F. Wenk, secretary of the last conference, when the following were found to be present: A. M. Hough, Adam Bland, I. M. Leighy, M. M. Bovard, John B. Greed, W. A. Knighten, J. D. Crum, J. H. Peters, C. Shelling, E. S. Chase, R. W. C. Farnsworth, J. A. McMillan, G. H. Bolinger, W. Nixon, A. W. Bunker, A. N. Fields, T. S. Uren, M. F. Colburn, C. Leach, P. F. THE HUBBARD TRACT

Is by all odds the cheapest and most desirable tract on the market for the money. You can have fine large lots for only $175 and upwards, and each lot is covered with choice bearing grape vines, the streets lined with pepper trees, and graded. This property is advancing in value every day, and all we would ask of you is to examine it before you purchase elsewhere. We wish to give you bargains, and you will be convinced of it. You have heard that Los Angeles is growing southwest, and such is most assuredly the case. Look into the matter, and you will find this tract is being surrounded by our city. The soil is perfect; water pure, and the neighborhood as charming as a picture, and from this point you have the finest view of the mountains to be obtained in the county, and most every summer day, commencing about 11 a. m., a refreshing breeze. Just think! you can get lots here for only $1 per front foot. You can have them for $30 cash, and installments of $10 per month, without interest. The tract is a few minutes' walk from the Electric road, on Pico street or the proposed one on Adams street; or the horse car line to be built on Washington street, and you have good schools and churches, etc., close at hand. I am in from 9 to 12 a. m., and will take you out with pleasure at 2 p. m.

CHAS. VICTOR HALL,
10½ S. Spring street.

THE HARDIN TRACT.

This fine piece of land is a delightful spot for a home. You will find it almost next to where lots are selling for $2200 each, which is the best recommendation for these that we could call your attention to. Here you can have a lot for $225 and upwards, with trees, vines, etc. You will have to call early, for the prices are so reasonable that we will not have enough to go around. The streets will be graded and lined with pepper trees, and plank sidewalks put in. Do not purchase anywhere a lot before you see these, if you wish a live bargain. They speak for themselves. Always in from 9 to 12 a. m., and will take you out at 2 p. m. with pleasure.

CHAS. VICTOR HALL,
10½ S. Spring street.

SOMETHING NEW.

60 Acres well improved. I will sell ⅓ or the entire property at a rate to satisfy any speculator. It has vineyard and trees on it, and close to the city. Could be subdivided into ¾-acre lots, and to be sold on the MOST REASONABLE TERMS. $20,000 will buy this grand property, if you call in a few days.

FINANCE AND TRADE.

OFFICE OF THE TIMES,
LOS ANGELES, Monday, Sept. 20.

In the Produce Exchange quotations to-day Early Rose Potatoes, both Northern and Los Angeles, are somewhat lower, and a further decline in the offering price for Eggs is noticed, otherwise the list is substantially unchanged.

The Bradstreet Mercantile Agency reports 16 failures in the Pacific coast States and Territories for the week ending 17th inst., as compared with 12 for the previous week, and 29 for the corresponding week of 1885. The failures for the past week are divided among the trades as follows: 3 saloons, 1 hotel, 1 fancy goods, 1 wood and coal, 1 varieties, 1 grocer, 1 restaurant, 1 retail clothing, 1 blacksmith, 1 stationery, 1 cigars, 1 gents' furnishing, 1 box factory, 1 wholesale clothing.

The Mark Lane Express in its weekly report of the British Grain trade says:

"The bright weather of the past week has been of immense service to the late crops. Trade is without feature. Small deliveries have kept prices unaltered. Sales of English Wheat during the past week were 42,620 quarters at 31s 3d, against 70,244 quarters at 30s 10d during the corresponding week last year. Flour was dull, and prices favored buyers. The market was depressed by large arrival of low-priced foreign stuff. Barley is arriving slowly; sellers are asking an advance of 5s per quarter. Foreign Wheats are depressed. Corn is somewhat cheaper, but the scarcity of American flat mixed has helped to sustain values on spot. Three Wheat cargoes were sold, and six were withdrawn. There were no arrivals. The off-coast market is bare. Trade forward is weaker. At to-day's market Wheat was steady; the market slow. Continued fine weather prevents activity. Flour was very quiet. Prices of foreign Corn were in buyers' favor. American mixed was very scarce. Oats were in large supply and trade was dragging."

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Sept. 20.—Government bonds dull, but strong.

The stock market was extremely active the sales being the largest of any day for many months. Trading was accompanied by a great deal of excitement at times and prices were throughout quite feverish, and, although there were heavy realizing sales during the day, the demand was so good that marked advances were made over the whole list. Reading, Lake Shore, and some others of the trunk line stocks were sold heavily for foreign account at one time, and Pacific Mail was broken over 1 per cent., in the afternoon, by heavy realizing. The opening was strong at advances over the closing figures of Saturday, ranging from ¼ to 1 per cent. Later on Delaware and Hudson, and Canada Southern, Western Union and Texas Pacific were up ¾ per cent. each. In early dealings there was considerable irregularity in prices, which, however, disappeared toward noon, when everything moved up in unison. Lackawanna advanced sharply in the afternoon, supported by Western Union and Omaha, but a break in Pacific Mail checked the general advance for a short time, though it afterwards recovered handsomely. There was again heavy selling in the last hour, which caused reductions in some stocks and held others down to the prices already attained. The market closed firm. The most notable advances were Western Union 2, Lackawanna ¾, and Texas Pacific ¼ per cent.

Money on call, active, 5 per cent.

Two Friends Meet.

"Hello! Old fellow! What have you been doing to yourself? You look like a subject for the undertaker," exclaimed the man on the right.

"I have been taking mercury and potash mixtures until they have nearly ruined me," squeaked the old man on crutches.

"And I," said the other, "have been taking the genuine Swift's Specific, which has built me up from the first dose."

Swift's Specific

Nature's own remedy, made from roots gathered from the forests of Georgia. The method by which it is made was obtained by a half-breed from the Creek Indians, who inhabited a certain portion of Georgia, which was communicated to one of the early settlers, and thus the formula has been handed down to the present day. The demand has been increasing until a $100,000 laboratory is now necessary to supply the trade. A foreign demand has been created, and enlarged facilities will be necessary to meet it. This great

THE CONVENTION.

County Republicans Marshaling for To-day's Fray.

THE DELEGATES AND CANDIDATES.

The Political Pot Boiling Fiercely—The Bosses and the Anti-Bosses—The Outlook in General.

The fight is on. The County Republican Convention meets in Turnverein Hall, at 10 o'clock this morning, and there is prospect of a lively contest. The delegates and candidates are on deck in about equal numbers, and equally busy. The country members poured in last night in force, and were thick on the corners and at the hotels. It grows evident that they are pretty well awake to the questions of the hour; that they have "spotted" the bosses, and are posted on the infamous methods by which it was attempted to capture the city for the ringsters.

The Ring is lying very low, though working hard. Its members seem to appreciate their position in public disfavor. No one who has any favors to ask dares confess any alliance with the bosses or with any of them individually. No power could force any candidate to be seen talking on the street with Mr. Boyce, and every one disclaims any interest in him. Even those who are absolutely known to be his candidates are thus bashful.

There is likely to be a test of strength at the outset, on the chairmanship of the convention. The bosses and their workers are hustling their best in support of Prof. C. E. Day. He disclaims any connection or sympathy with them, but they will claim a victory if he is elected. The delegates who are not in sympathy with the bosses may very likely unite on Gen. John R. Brierly. At least his prominence, experience and general qualifications for that post make him the likeliest candidate. The convention is liable to be a lively one, and a steady hand will be needed at the helm.

There was something of a riot among the candidates yesterday afternoon, upon the promulgation of the County Central Committee's order fixing the assessments of the candidates. The aggregate is about $8000, as against about $3500 two years ago. The Sheriff is taxed $600, Clerk $450, Recorder $350, Treasurer $750, City Justice $500, Township Justice $750, Supervisors $150, Constable $300, etc. Some candidates look upon this ante-convention schedule as a bluff to scare off the small fry.

The race for Auditor was simplified yesterday by the withdrawal of J. A. McCusker. This leaves Frank Bader, now in the Tax Collector's office, well in the lead.

Below will be found the lists of candidates and delegates, and other information now of interest.

THE CANDIDATES OF THE BOSSES.

There is not what can accurately be called a complete ring ticket. The bosses have centered on a few men whom they particularly desire, and beyond this will stand in with those candidates whose success is conceded—as Sheriff, Clerk, Recorder, Tax Collector, etc. The latter gentlemen are endorsed as life-preservers. The men for whom the bosses are working are as follows: For Treasurer, J. E. McComas; District Attorney, Wm. T. William; Senator, H. W. Magee; Assessor, Ivar A. Weid; Supervisors, E. T. Wright, D. G. Stephens; Township Justice, R. Ranney; City Justice, Frank P. Kelly; Constable, John C. Cline; Coroner, And. McFarland.

All these gentlemen are most active in disclaiming in the highways and byways the proposition that they belong to the bosses, and the TIMES doesn't say they do—but all the same the bosses are working for them tooth and toe-nail. The fine distinctions can be drawn by the reader.

THE BAYNTON TRAGEDY.

Baynton Held—Funeral of His Wife and Kipp.

Miss Nettie Kipp still lives, but the chances for her recovery do not grow better. The doctors believe that she was shot twice, and that inflammation from the abdominal wound may be expected in a few days.

The funeral of Mrs. Baynton took place at four o'clock Sunday afternoon, and Mr. Kipp was buried yesterday afternoon at 2 o'clock. They were both interred in Evergreen cemetery.

Yesterday morning Baynton was arraigned before City Justice Austin, but refused to plead. An examination was then had of the same witnesses who attended the inquest. No new testimony was adduced. Baynton was held to answer on one charge of murder, and the examination of the second charge was set for the 23rd instant. During the examination Baynton covered his face with his hands and cried. There was a large crowd of spectators. No violence was offered the prisoner.

Saturday evening some two hundred and fifty men rendezvoused in Sonoratown for the purpose of taking Baynton out of jail and hanging him, but wiser counsels prevailed, and the crowd quietly dispersed. If they had gone to either the city or county jail they would have been foiled, for Sheriff Gard had removed his prisoner to a safe place. Baynton told Gard on Sunday that he would plead guilty to a charge of murder, as he expected to be hanged, but did not want to be hanged by a mob. He afterwards changed his tactics, and refused to plead. Yesterday he deeded his property, consisting of a house and lot on Olive street, valued at about $4500, to his children.

Two years ago, when in the service of the Central Railway Company, Baynton was discharged on account of his insulting treatment of passengers.

A subscription of over $200 was taken up on Saturday by the employés of the Los Angeles Furniture Company, where hapless Nettie Kipp worked. It is proposed to second this worthy kindness by popular subscriptions. The family—what the assassin has left of it—is absolutely destitute. Mr. Kipp had been sick for a month and had no means. The sole support of the family was 14-year-old Nettie, who was earning $7.50 per week sewing carpets; and was to have had her pay raised soon to $9. All who know her speak of her in high terms.

Attempted Assassination.

Last Friday in the Azusa John Jones, a Texas cowboy, attempted to assassinate Hector McLane (colored) in the Holiness Tabernacle by shooting twice at him with a revolver. One ball struck McLane in the right wrist, inflicting a painful wound, which may necessitate the amputation of the hand. Jones was overpowered and arrested. He was drunk at the time.

Prohibition Rally.

The Prohibitionists will have their first big rally this evening at the platform in front of Temple Block. Their candidate for Governor, Hon. Joel Russell and Assemblyman Rev. W. B. Stradley will be the speakers.

Advance Certain.

The Electric Railway Homestead Association guarantee an advance in price of their lots.

Mr. Hellman's Proposition.

As to the new City Hall plan, Mr. Hellman's proposition is to trade his lot on Fort and Second for the hole already dug on Spring street, and have the three arbitrators say what boot he shall pay to the city.

18 1-2 Acres of land located west of Pasadena, at the base of the mountains, in the finest fruit belt in Los Angeles county. Fine climate, no fogs, pure water, the finest soil in the world, and about 1600 feet higher than the city of Los Angeles. The place for parties coming to this county with throat and lung troubles. No frost at any time of year. Only a few miles from the ocean breeze. $150 per acre.

927 Acres in Tulare county, Cal., near S. P. R. R., and located in the richest valley in the world. Just the place for a good farmer with small means.

P. S.—I am the owner of the above lands and lots, and my object of exchange is to concentrate all in one body of land if possible, but I love to trade, and if you see anything here you want, call on me at my office or write me. Would exchange for good property in Southern Kansas.

CATARRH, Etc.

Catarrh is often regarded by the patient as cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a fresh cold; indeed, he declares that he is scarcely free from one cold before he takes another, and yet he is always exceedingly careful. It is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appears, and he learns to his horror that, instead of recovering from the disease, it is somewhat changed in character, and has extended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs; a sensation of dryness is felt in the throat, or it appears that some foreign substance, as for instance a hair, obstructed the throat; there becomes a sense of languor and fatigue, breath lessens upon a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there were not room enough in the chest to breathe—these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the progress of the disease may have been slow, and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years and has not seemed to become much worse, and trusts that he will by and by recover; but this delusion is the grand error that has peopled our cemeteries with consumptive forms.

We are positive in saying that three fourths of the vast number who die of consumption might be saved, did they awake to the true sense of danger when the disease first appeared in the head and throat, and the best writers, the ablest physicians of the day, have expressed similar opinions.

The people do not require to be told the symptoms of consumption, for there is scarcely a family in our northern States whose circle has not been invaded by the destroyer—scarcely a home wherein some loved one has not felt its blight, and either passed away from earth or is wasting to-day and seeming the hopeless victim of this terrible disease.

The symptoms of the first stage of consumption are various. The following are prominent, and wherever any of them exist a thorough examination should always be made, with a view to arresting the disease, if shown to exist. There is usually a sense of weariness upon little exercise, a disposition to remain passive and indolent, despondency oftentimes from no apparent cause, a peculiar sensitiveness to the effect of cold, and breathlessness as upon moving, or descending a hill or stairs, a slight hacking cough with or without expectoration, excitability upon slight occasions, flying pains through the chest or back or under the shoulder blades. The symptoms are more noticeable toward or during the night, slight fever in the afternoon, cold feet and hands, or in many cases a blue lividity of the lips and roots of the finger nails.

Probably no discovery or improvement in medical practice of late years has been of more utility than that which is properly known as the "inhalation system of cure" in throat and lung diseases. In this climate, where at least one in every three persons in the entire community is afflicted with some form of throat or lung disease, anything which really tends to arrest the disease and restore the sufferer from its ravages is surely a blessing which will be appreciated by every family throughout the country. Its results are most gratifying and remarkable, and have elicited the very highest commendation from many of our best citizens. It conveys the remedy directly to the parts diseased. Its effects are prompt and permanent. Its action is always perfectly safe and salutary, even in the most debilitated cases. Relief is usually obtained from the first hour of using the remedies. The treatment is both local and constitutional, and yet the cures are effected without much medicine.

Let there be no delay then in application to the treatment that has stood the test and has proved again and again the only hope—the only reliable safeguard and means of restoration.

Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake. Nearly every case requires positive medication, so as to become rid of the
